GREEN TIP FOR THE START OF THE YEAR

New Year is a time of hope for a better and greener year to come. Consider what you might do this year to lower your carbon footprint.

Could you:

- a) use public transport more;
- b) cycle or walk more than you do;
- c) move to an electric or hybrid car;
- d) turn your thermostat down by a degree?

There are lots of ways you could make 2025 a lower carbon year and play your part in contributing to climate justice.
