### GREEN TIP

The start of Christian Aid Week. For many in developing countries putting food on the table each day is a real struggle. For families in large urban areas where land is scarce, such as the slums of Nairobi, it is even more difficult. If they cannot earn the money they need then families go hungry. However with Christian Aid's help local partners can enable people to grow food on even the smallest patches of land. They might even have enough to sell in the local markets. This month why not tithe your supermarket shop, giving 10% of the monthly bill you pay to Christian Aid?
