<https://insight.cofesuffolk.org/courses-events-and-resources/together-we-are-listening-survey/>.

This link will take you to the Diocesan work and resource space, where you will need to make an account. It's well worth it especially as, when you've completed the survey, you can have a good look around and find lots of helpful and interesting things!

GREEN TIP

If we take seriously the instruction from Jesus to 'Love your neighbour as yourself' (Mark 12:31) then surely the action of sending 'our problem' elsewhere has got to be challenged? Our global brothers and sisters are not only facing the greatest impact of climate change, they are suffering directly from our overconsumption of plastic. Banning plastic waste exportation would force more dramatic steps to be taken within the UK and necessitate a reduction in the reliance on single-use plastic. Whilst the raw materials, allowing us to create such a transformative material come from God's creation, our Christian duty to love our neighbour must shape how we use this resource. That's why it's so important to act locally, by reducing your plastic waste at home, and think globally by supporting international movements and policies to end plastic pollution.
