GREEN TIP

A good way to save money and the planet is to try to batch bake in your electric or gas oven. It takes a lot of energy to heat an oven up, but relatively little to maintain the temperature. If you can arrange it so that items are baked or cooked one after the other while the oven is hot, then you will save money and release less carbon.

Do you have a concern or are worried about someone? Whether it's regarding someone from church or the wider community, please give me a call or email me, even if you're not sure that it's a safeguarding issue. Please don't hesitate to get in touch. I'm here to listen, offer support where I can and help our communities.
